## Black Helicopters and Heavily Armed Soldiers Conduct Drills In Downtown Chicago As Preparation for NATO Summit Confrontations Continue

April 17, 2012

In a shocking display of the police state and the creeping push towards actual martial law, heavily armed military officers in black helicopters swooped through downtown Chicago in what was billed as a routine military exercise.

Up to three Blackhawk Helicopters flew in formation and separately around downtown office buildings and apartments for at least three hours.

A report by the local Chicago Fox affiliate was surprisingly unconvinced by the military's claims that these exercises had nothing to do with the upcoming NATO Summit:

*The city's Office of Emergency Management and Communications on Monday announced that Chicago is the site of a military training exercise this week involving personnel and at least three helicopters.*

*But the bland press release from City Hall did nothing to prepare folks for the jarring scene that unfolded Monday evening.*

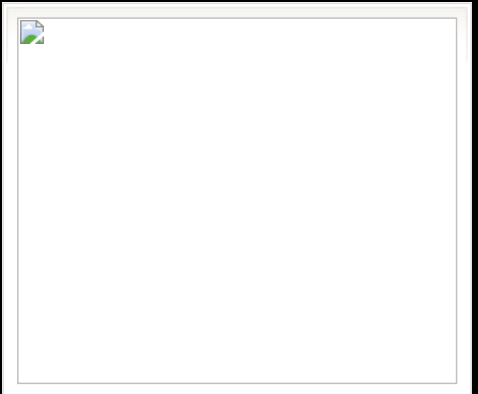

*"It was frightening," Jessica Hill said. "I was definitely alarmed."*

*At least three Blackhawk helicopters flying at time in close order formation – at other times separating fairly widely – zoomed around office and residential towers for several hours.*

*"I was pretty amazed," Felise Llano said, "because they were definitely military."*

*Survival Seed Bank from MyPatriotSupply.com (Ad)*

A quick look through the various videos of these helicopters flying very low to the ground throughout the city shows just how out of control this country has become.

An article by Steve Watson of Infowars.com pointed out the similarities between this so called drill and others that have taken place in Los Angeles and Miami.

*As we reported in January, the exact same scenario was played out in Los Angeles for a full week, with huge Black Hawk helicopters seen hovering over the US bank building and The Staples Center, along with four of the smaller OH-6 choppers.*

*A statement issued at the time by the LAPD, announced that the covert exercises were “designed to ensure the military’s ability to operate in urban environments, prepare forces for upcoming overseas deployments, and meet mandatory training certification requirements.”*

*The exercises are part of a spate of recent military drills to hit heavily populated areas throughout the country.*

*Back in April last year, residents of Brickell, Miami witnessed at least three large Black Hawk-like helicopters conducting military exercises over their heads. Some initially believed it*

*was a movie shoot.*

As the local Fox News affiliated heavily hinted in their news report, these military urban warfare exercises were most likely in preparation for the upcoming NATO Summit as well as overall military training to take on the American people.

The preparations for a confrontation in Chicago have gone into hyper drive with the Secret Service releasing a “shopping list” of weapons and barriers they need for security at the NATO Summit while conveniently denying protesters their first amendment protected right to protest.

The Chicago Sun Times recently published an article describing the things the Secret Service is current seeking which include

- Portable high security barriers
- Crowd control barriers
- 10-12 portable light towers
- Sandbags, port-a-potties
- Mobile offices
- 5-10 golf carts

Sadly, the Chicago corporate media has largely moved to make these insane police state tactics sound as normal as possible with the Chicago Tribune reporting on the Secret Services plans as if it was a normal everyday news blurb:

*Last week, the U.S. Secret Service published bidding specifications for the work of putting up security barriers in the city for the May 20-21 summit that will bring leaders from around the world.*

*The Secret Service won't say where those barriers are going, but the specifications for the contract suggest the work of erecting chain-link fences and placing concrete barriers will begin May 14, a week before the meetings of the North Atlantic Treaty Organization.*

Workers will have to put up 3,600 linear feet of "anti-scale" steel fencing, as well as 17,000 linear feet of concrete barricades. The fencing is currently stored at a federal facility in Maryland, while the concrete

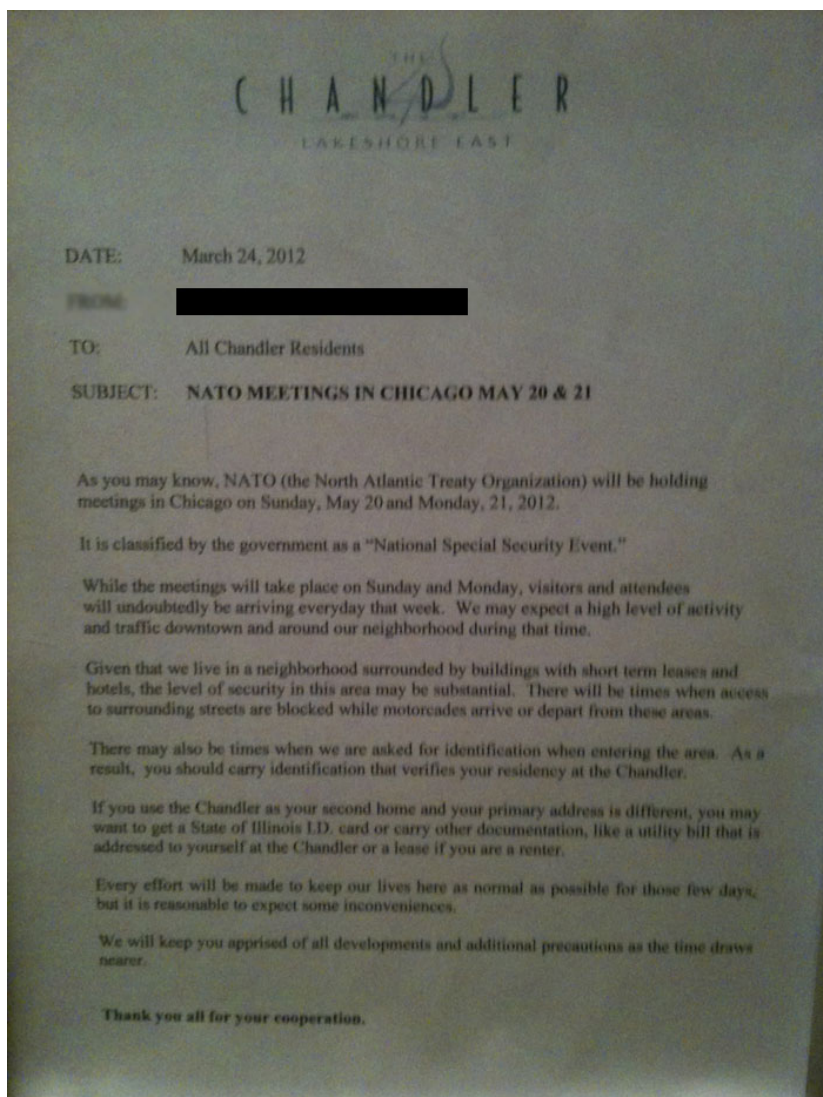

*The specifications also call for 16-foot-wide "portable vehicle barriers" capable of stopping a 15,000-pound vehicle traveling at 30 mph.*

Meanwhile, residents of downtown Chicago apartment buildings have been given notices that they may be denied entry into their own apartments if they do not carry identification to prove they live there.

[WLS 890AM](#) in Chicago recently published a flyer that is currently in at least once apartment building near the scheduled NATO Summit.

The flyer lets residents know that they will need ID or could be denied entry into their own homes while corrupt NATO leaders plan their next war.

*"If you use the Chandler as your second home and your primary address is different, you may want to get a State of Illinois I.D. card or carry other documentation, like a utility bill that is addressed to yourself at the Chandler or a lease if you are a renter."*

Not to be outdone, students throughout the Chicago public school system are being brainwashed into literally worshipping NATO and the military industrial complex.

Students were assigned a video project showing NATO delegates around important places in Chicago.

It is clear that the police, Secret Service, the military, and private contractors are all preparing for a large scale confrontation with numerous protest groups during the NATO Summit Weekend while at the same time forcing children to worship their worldwide war plans and laughing in the face of millions of citizens throughout the world.

Sadly, a repeat of the [snatch and grab](#) filled Pittsburg G20 protests may be on the horizon.

As someone who us to be part of meetings like this and use to do security at these meetings I have to call BS on the info listed here.

1. In no way would they release papers stating that there will be a meeting of high ranking members of NATO to it employes. Rather we rent the area plus some and

provide are force to hold the grounds. We study everything plan escape routes and etc etc.

2 The photos of the black hawks is nothing strange. The army has been doing training in major US cities with civilian counter parts for years as part of it ANTI Terrorism Plan. To better join the Military and Civilian forces should something happen. The birds are not in fact that low for average flight. People should watch real helis flight and not what they see in the movies.

3 Worry when 10th mount or 101 come storming in in trucks tanks and full gear with weapons because you wont know they are coming till they start into town.

Besides you're talking to everyone like we're children (which is disrespectful in itself) #3 says everything people need to know about you. You hold a dislike for "regular people" and it's like you'd get joy from military rolling up on unarmed civilians.

What's insulting, most of all, is how you tread lightly when speaking about what you know yet know you're lying acting like these sorts are hardly about just fighting terrorism. BTW, the stuff above are photos, not videos and IT IS strange. Unless they're like you fantasize about a potential 'police state'.

Stephen,

The 10th Mountain Division is NOT going to fire on Americans. They are as fed up with the NWO as the rest of us. (You obviously do not know the hell they are being put through by the endless Illegal Wars.)

Not sure where you get your "Intel" though it appears that you are regurgitating talking points from the DHS.

@Stephen. Doesn't sound like you're from Chicago. Well, I am. I can definitely say these operations are NOT normal for this city. Also, they WERE flying much lower than normal flight. While looking up at them, I was able to see three soldiers sitting on the side and also see their faces. Not clearly, but visible. I've lived in this city for 32 years and have never seen helicopters flying that low to the ground. As for the notices, buildings are passing them out to security, employees, and residents of said buildings. Your complete post is just silly.

Stephen accidentally exposes NATO/military compartmentalization and personal knowledge of plans for these domestic mercenaries planning to mow us down with machine guns. And he name calls from the protection of being employed by these people. Too many tax revenues being wasted maintaining no talent violent losers willing to murder innocent people for pay. We need a serious house cleaning here in America.

Wishbone... won't do that. We have ways to settle these scores.

Make Senators/Reps go after SCJ Ginsberg. Can't be denied she is the sore thumb sticking out. Publicly rejected her Oath of Office in which she swore to uphold and defend the Constitution of the United States. She sliced it to ribbons with her sharp tongue and arrogance by stating to the Egyptians that our Constitution is old, out of step, and too hard for her to work with. If that isn't worse than burning our flag, you better explain it to me.

This INGRATE kicked every troop who fought in WWII in the teeth, including every American from the Revolutionary War to the current battles. Charge her with treason and plunk her in a Federal Pen, maybe next to her kinfolk Pollard.

She's proof of the saying a good deed never goes unpunished. Americans, Flag, Constitution and Freedom loving Americans, died on many battlefields to save her kin and maybe her skin.

Make removing her a big scene for the world to see.

as Stephen informs its all normal and natural....meanwhile the implicit message is "be afraid...stay afraid" because when civilians are afraid the guys in brown shirts get to do pretty much what they want to....and you can take my reference to 'brown shirts' in any way you can imagine! Get folks used to be surveilled, harrassed, intimidated, and always always always "REMIND" them how they're keeping us all safe...from.....bad guys....(the heathen injuns, the yellow peril, the black hoards, the poor, the immigrants, the jews, the catholics, the muslims, the unemployed, diseases, foods, corporations, government entities, politicians, immigrants (did i already say immigrants?) Youhave to be taught to hate and fear you have to be carefully taught....Now that we're outta the "evil empire" hatred....we had to fill in the "BLANK" wih another enemy....pick a billion people and make them the enemy. So far only 2 wars but dont give up we may get another couple to blitz....KEEP playing those XBOX war games to keep your thumbs in shape!!! Peace dividend? remember that one after the USSR was removed from the map of time?.....Peace dividend...sheesh...how we gonna make the big bucks that way?

Hey folks,

In the first vid (Top) those appear to be 'Mini-Birds' with 'Mini-Guns.'

The destruction that just one of those could deliver on the unarmed Chicago dwellers would be, let's just say; 'OverKill.'

Also in that Vid, the talking heads refer to the participants of the upcoming event as; "World Leaders."

World Leaders? Yes, I get it. Sovereign Nation States no longer exist in their view. (I am guessing.)

God is real, the only real. All that is, is God united with God's desire, Universal creative principle. God, for there to be creation had to involve and individuate to the lowest level. Our Souls are on the path of return to realizing its inherent freedom but mostly it seems at early human stages. These NWO creators are using the involuntary path to stay in control. When we can purify the collective mind illusions sufficiently then there will be no place for their intentions to manifest. Most people are almost entirely identified with their own illusions, and by extension manipulated by the NWO illusions.

Yes, cause and effect will not and can not be evaded. Even the Gods can not escape the reaping.

Well, Chicago, how ya feeling with No Guns now? Chickens. Cluckers. You saps who let those thugs take your guns asked for this. Be sure you stay there and

don't try to sneak outside of your boundaries. Nobody is gonna want you and will reject and send you back because you have helped bring destruction of Freedom. Doubt that this sky show is because of NATO. Probably because O is being "resigned"

Mayor... and you idiots will all bow to him, he has trained you to bow while he was Senator. Some Great Brave Americans have demanded proof of O's qualifications to be President, and demanded publication of his History... birth certif, passport, school registrations and thesis, etc. Those great Freedom and Constitution lovers won't stop, and have surprised O's controllers who put him in the Oval Office because they thought Americans would forget about it or just accept everything like good Chicagoans do. Nah, there are just enough Real, Brave, Freedom loving Americans left in this country who will fight while Chicagoans hit the bars. The controllers have likely told O "how it is" and he will be moved back to you guys as they are OBVIOUSLY supporting Willard Romney (did you know his name is Willard?) Controllers directed MSM to push Richie Rich Herman Munster Eddie Haskell (rolled into one), into the GOP's "choice" as candidate. They would put Biden in and everybody knows he would lose, so their new puppet Willing Willard would be Pres and Americans would forget about O's credentials. Reason for this switcheroo is the controllers are afraid Americans will follow the dots to their doors regarding the eligibility deceit, and they sure don't want that. Controllers moved Rahm to your Mayor's Office as a placeholder who is prepping you guys to accept the trickery. He's now moving stronger on everybody's guns, supporting Holder who spun some guns in Fast and Furious. Issa of CA is going after Holder for the Fast & Furious Fiasco. The controllers will move Rahm back to DC to help Willing Willard, and have already shipped Daley back to Chicago to help Obama settle in. So.... think again about those Blackhawks. They ain't there to help you... they are from the government... and even Chicagoans should know what that means. Maybe. You will sure not have a better chance to show if you ARE Americans, Chicagoans. Soon. Better figure it out. Probably your last chance.

**Feathers Flying in ChiTown says:**

April 18, 2012 at 5:05 am

Better start confronting MSM publicly and loudly for promo'ing Willing Willard, and demand they give equal time to RON PAUL. He is THE only one who is not in it for money, he is an Air Force Veteran, an OBGYN who delivered 4000 (that's Four Thousand) new little Americans into this country, a Congressman highly appreciated by his constituents, upholds his Oath of Office, loves our country, our founding, and loves Americans. Loyal husband, good father, grandfather, relative, neighbor, friend. He will never betray or deceive citizens. FIGHT for him, the MSM controllers are scared to death of him and try to shut him off everywhere and way they can. Shove it to them, pull the rug from under those creeps, SHOUT OUT FOR RON PAUL... or get used to those Blackhawks, you high rise dwellers.

Here Is Robert Menard the Freeman explaining Protest

If you never saw his Bursting Bubbles Of Government then you will see Robert Menard knows what he speaks of.

<http://www.youtube.com/watch?v=Q-HnExGn69c>

That's why they taught all the hippies to protest!

You'll notice things just got better and better sine people started believing in protesting. Heck they hire rent a mobs to dress up like fools and protest and show them on TV so no one takes the "protesters" seriously. LOL you people and your consent giving protest! Heheheh

I live about 2 1/2 hours north of Chicago just over the Wisconsin border. Yesterday, middle of the afternoon, I hear what sounds like a jet in the distance. A split second later the sound is so loud I got nauseous. I thought a nuke or some sort of missile was about to hit. In all the years I have lived here I have never heard a 'jet' like that. Now I am finding this article... I feel like we aren't getting the whole story here... Not that we ever have to begin with. That's all just my two cents...
